FDUCATION

BBS College of Engineering and Technology

Bachelor of Technology

Computer Science and Engineering

July 2021 — July 2025 Prayagraj, Uttar Pradesh

TECHNICAL SKILLS

Languages : C, HTML/CSS, JavaScript, TypeScript

Libraries/Framework : React.js, Node.js, Express, Bootstrap, Tailwind CSS

Databases : MySQL, MongoDB

Tools : Bash/Linux, MS Office, Git, Operating System, Computer Networks, OOPS

EXPERIENCE

Cetpa Infotech Private Limited

Sep2024 - March 2025

Full Stack Developer (MERN) - Intern

- Developed responsive and interactive UI components using React.js, JavaScript, and CSS framework (Bootstrap,Tailwind)
- Collaborated with team members and mentors to design and optimize MongoDBschemas for users, products, and orders, improving 20% projectefficiency through effective teamwork and communication.
- Developed and integrated userauthenticationsystems for secure access to the platform, ensuring role-based access control for users and admins.
- Crafted robust APIs for product management, cart functionality, and order processing, achieving a 95% successrate during frontend integration.
- Integrated MongoDB queries for fast retrieval of user-specific data, including orders and cart items, reducing response times and improving backend performance.

PROJECTS

CRUD App

- Built a Mern-based appilication that allows users to perform CRUD operation.
- Created a secure backend API with Node.js, Express.js and MongoDB.
- We have a secure user authentication system using JWT, achieving zero instances of unauthorized access and boosting user engagement .
- Designed an intereactive UI using React.js , React-Router , and Tailwind CSS.
- Implemented User Validation , pagination , and Update ,Delete functionality for enhance usability.

Voting App

- Engineered a backend application to efficiently manage records of votes, candidates and voters.
- Utilized Node.js/Express and MongoDB to create a scalable and responsive application.
- Engineered a robust user authentication system that streamlined access management for over 1,000 users.
- Implemented role-based authorization ensuring distinct functionalities for admin and voter profiles while enhancing security measures.

Portfolio-Website

- Developed a Mern-based web application enabling users to perform seamless CRUD operation.
- Built a secure backend API using Node.js, Express.js, and MongoDB, ensuring efficient data handaling.
- Designed an interactive and responsive UI using React.js, React Hooks and Tailwind CSS for smooth user experience.
- Writing clean, efficient, and scalable code in React.js
- Implemented a responsive front-end using React and CSS, reducing video load times by 30% through efficient API call optimization and caching techniques.

HONORS/AWARDS

- Mastered analytical prowess through tackling 200+ DSA problems on various platforms like LeetCode and GFG.
- Participated in Cetpa Infotech Pvt. Company to Intern Six months MERN stack Development.
